Teacher's Format (Monthly Planner)

Class VII Science(2023-24)

Month	Book	Chapters	Periods	Activity
March No. of working days: 4	CORODOVA	Recapitulation of previous class syllabus. Ch-1 Nutrition in Plants(Introduction)	4	
April No. of working days: 17		Ch-1 Nutrition in Plants	5	<ul style="list-style-type: none"> • Activity to show that sunlight is necessary for plants. • Visit your nearest park and observe different types of plants. Find out the type of mode of nutrition in them and discuss in the class. • To make model showing Photosynthesis. • To determine the time period of a pendulum. • Make a sand clock. • Burning test to observe difference between wool, silk and synthetic fibres. • Make a model of Life cycle of a silkworm.
		Ch- 13 Time and Motion	6	
		Ch-3 Fibre to Fabric	4	
May No. of working days: 15		Ch-2 Nutrition in Animals	5	<ul style="list-style-type: none"> • Activity to test the action of saliva on starch. • Class will be divided into groups. Each group will be assigned a different organ of human digestive system. They will prepare a presentation on that organ explaining its structure and function. • Activity to show that Xylem Conducts water in plants. • Activity to calculate the pulse rate when we are at rest or after exercise or running. • Make a model of Stethoscope.
		Ch-11 Transportation in Animals and Plants	7	
July No. of working days: 18		Ch-14 Electric current and its effects	4	<ul style="list-style-type: none"> • Make an Electromagnet or Electric Circuit.
August No. of working days: 22		Ch-10 Respiration in organisms	8	<ul style="list-style-type: none"> • Activity to show that the air we breathe out contains water vapour.
September No. of working days: 10		Revision		

October No. of working days: 20		Ch-15 Light	8	<ul style="list-style-type: none"> To study nature and position of image formed by mirrors(Concave & convex) and Lenses(Concave & convex) To show that white light consists of seven colours. Make Newton's disc. To determine the nature of the given solutions(basic , acidic or neutral) using different indicators. To study a neutralization reaction.
		Ch- 5 Acids, Bases and Salts	8	
November No. of working days: 20		Ch-4 Heat and its effects	7	<ul style="list-style-type: none"> To show thermal expansion in gases. To show heat transfer by conduction and convection. Activities showing physical changes with the help of some materials. Activity to show that in a chemical change, one or more substances with entirely new chemical composition and properties are formed.
		Ch-6 Physical and Chemical changes	6	
December No. of working days: 20		Ch- 12 Reproduction in plants	3	<ul style="list-style-type: none"> Collect parts of the various plants are used in natural or artificial vegetative propagation, such as rose potato, money plant etc. Put these vegetative parts in the soil (either in your kitchen garden or in an earthen flower pot). Observe the growth of these plants from different vegetative parts. Make a model showing flow of energy in a food chain
		Ch-17 Forests: Our Lifeline	7	
			3	
January No. of working days: 19		Ch- 18 Waste water story	7	<ul style="list-style-type: none"> Make pamphlets showing plan to achieve sanitation in your community.
February No. of working days: 12		Revision		

Teacher's Format (Monthly Planner)

Class VII social science (2023-24)

Month	Book	Chapters	Periods	Activity
March No. of working days: 04		Recapitulation of previous class syllabus. Introduction of chapter 1 History.	4	
April No. of working days: 17	History Geography Civics Civics	Chapter1- Medieval India Chapter1- Our Environment Chapter1- Equality in Democracy Chapter2- Healthcare services in India. (Activity based).	4 5 5 2	<ul style="list-style-type: none"> Find two literary and archeological sources and explain their significance.
